

Cycle Oregon COVID-19 Mitigation Plan

Cycle Oregon is excited to welcome you to this special-edition Tygh Valley Rally. Our top priority is the safety of participants, volunteers, and the communities we visit. Working within the guidelines from the Oregon Health Authority (OHA), we have developed a COVID-19 mitigation plan and protocols based on current guidance for the event location (May 20, 2021 guidelines). Protocols will be adjusted as more information becomes available or as guidance changes.

Here are some of the changes you can expect at a Cycle Oregon event:

PRE-EVENT:

- Riders, staff, volunteers, and vendors may be asked to submit proof of COVID-19 vaccination or a recent negative COVID-19 test upon arrival to the event.
- Emails will be sent to registered participants with updates and reminders about the event safety practices.
- A health questionnaire will be sent to all registered riders 48 hours prior to the event start and must be completed and turned in when they arrive at an event.
- Staff and volunteers will be trained on COVID-19 safety precautions and cleaning practices.

EVENT SITE:

- Masks are no longer required for people who are outdoors, though masking is still encouraged, especially in crowded places. OHA *strongly recommends* that individuals who are unvaccinated or who are at risk for severe COVID-19 disease continue to wear a mask when in outdoor crowded areas and in outdoor large gatherings of individuals and maintain physical distancing.
- Everyone is encouraged to carry a mask with them at all times.
- Fully vaccinated individuals will not need to wear a mask indoors (bathrooms, kitchens, trailers, etc.); unvaccinated individuals will be required to wear masks in these spaces.
- In the Dining Tent, tables will have a maximum of 8 people seated per table.
- 6' spacing will be designated in areas where people will be waiting in line (showers, dining, packet pick-up, etc.); members of the same party do not have to stay 6' apart.

- Blue rooms and showers will be cleaned and sanitized regularly. Hand washing stations, sanitizing wipes, and hand sanitizer will be available throughout the site.
- Yoga will be offered, with participants spaced 6' apart. Mats will be sanitized and offered for use, and participant will be required to sanitize the mat after use. Cleaning supplies will be provided.
- Physical distancing of at least 6' should be maintained between participants who are not in the same party, particularly in areas of congregation (i.e. beer garden, mainstage, dining tents).

ON THE ROUTE:

- To maintain social distancing, groups and individuals should not congregate at the start and finish lines or at route stops unless they are in the same party.
- One way guidance lanes with 6' spacing will be implemented at all rest stops and lunch, and any other areas where lines will be expected.
- Hand washing stations and hand sanitizer will be available at all stops on the route.
- Riders will be required to remove their gloves at all stops where food and beverages are available.
- All surfaces at stops and in support vehicles will be sanitized regularly.
- SAG vans will limit capacity to 50% of available seating. This may mean longer than normal wait times due to these limits. All participants are required to wear masks in the vehicles.
